January 7, 1987

Mr. George Beamer
Product Development Engineer
Interpace - Mica Plant
Highway 27
Mica, Washington 99023

Dear Mr. Beamer:

Re: 1986 Annual Report, Clinton Mine, ACT/049/006, Utah County, Utah
1986 Annual Report, Pleasant View Clay Pit, ACT/057/003,
Weber County, Utah

Enclosed are the annual report forms that must be completed and returned to the Division by March 31, 1987. These reports request details of the mining and reclamation activities conducted during 1986 and should include an updated map of each operation plus the results from the vegetative test plots.

A recent review of our files indicates that the permit review of the Clinton and Pleasant View Clay Pits was incomplete as of 1980. We would like to complete the permitting requirements for these operations during 1987. The Division will resume the review of your original 1977 submittals if they are still consistent with Interpace's existing operations and current plans. If Interpace's plans have changed significantly since the original submittal, it will be necessary for you to submit revised mining and reclamation plans for your Utah operations. We will require updated mine maps and a summary of your vegetative test plot results in either case.

Please contact me or Frank Filas of my staff as to which course of action you wish to pursue. We will be happy to answer your questions and provide you with any additional information that you may require. Thank you for your great patience and assistance in completing these permitting actions.

Sincerely,

A handwritten signature in cursive script, reading "Lowell P. Braxton".

Lowell P. Braxton
Administrator
Mineral Resource Development
And Reclamation Program
